

Tripod

Set-up Instructions

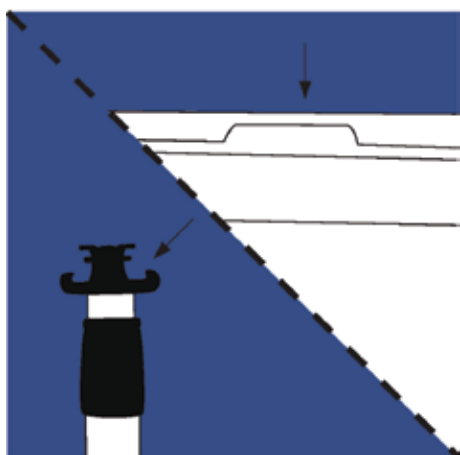

- 1 Take the Tripod hardware out of the bag and position it on the floor.

- 2 The feet connected to the middle pole will snap into place automatically and the Tripod will now stand freely.

- 3 Unroll the graphic and slide the black head of the middle pole in the channel of the top profile bar beginning from the edge.

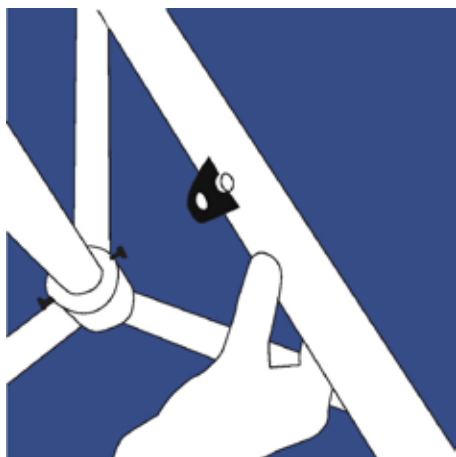

- 4 Unscrew the black twist-lock to extend the pole to the height of the graphic.

Tripod

Set-up Instructions

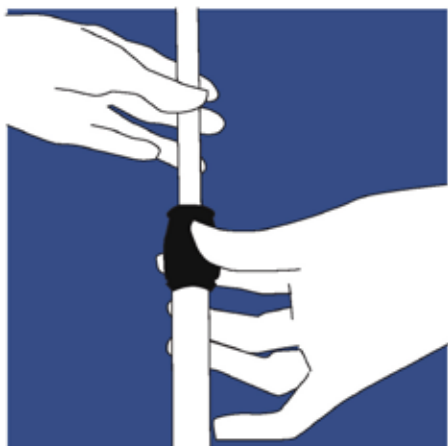

- 5** Hook the black tab with the hole at the bottom of the graphic in the pin of the adjustable ring at the bottom of the pole.

- 6** Extend the adjustable pole to the desired height.

- 7** Once the desired height is attained, tighten the black twist-lock to secure the top pole in place.

- 8** For a double-sided Tripod, repeat the instructions for the back side.
